Lewmar thrusters also available.

GPSMAPS 498

Special Purchase
 Don't miss this one!

Chart Your Course

This rugged, waterproof chartplotter comes preloaded with BlueChart® g2 data for the U.S. coast, including Alaska and Hawaii. This detailed map data includes 3D maps, tide and current data, improved IALA symbols, nav aids, marinas, boat ramps, coastal roads and more. There's even a database of aerial photos, detailed roads and points of interest that you can reference for "real picture" views of harbors and marinas. The 498 can also accept preloaded data cards for additional map coverage.

Catch Some Fish

The 498 comes with a built-in 500-watt (RMS) sounder with enough power to track fish deep underwater, yet precise enough to perform well in shallow water as well. The sounder features Ultrascroll™ for high-speed screen updates and can show both the sonar and map on the screen at the same time. And, it can even connect to another chartplotter with Garmin's proprietary CANet® connection.

GPSMAP 498 Sounder: Out of the box, onto the boat, off to adventure
