Catch Some Fish

The 498 comes with a built-in 500-watt (RMS) sounder with enough power to track fish deep underwater, yet precise enough to perform well in shallow water as well. The sounder features Ultrasroll™ for high-speed screen updates and can show both the sonar and map on the screen at the same time. And, it can even connect to another chartplotter with Garmin's proprietary CANet® connection.

GPS/CHARTPLOTTER LOADED WITH CARTOGRAPHY FOR ENTIRE US.

Internal Antenna \$429.99
